First Quarter 2022 Financial Report

Table of Contents

LONE STAR, ACA
MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis reviews the consolidated financial performance of the Lone Star, ACA, (ACA) including its wholly-owned subsidiaries Lone Star, FLCA and Lone Star, PCA, (collectively referred to herein as the "Association") for the three months ended March 31, 2022. The discussion should be read in conjunction with the Association's Annual Report to Stockholders, and notes thereto, for the year ended December 31, 2021. Operating results for the three months ended March 31, 2022, are not necessarily indicative of the results for the year ending December 31, 2022, or any future period.

The Association is a member of the Farm Credit System (System), a nationwide network of cooperatively owned financial institutions established by and subject to the provisions of the Farm Credit Act of 1971, as amended, and the regulations of the Farm Credit Administration (FCA) promulgated thereunder.

Since 1917, the Association and its predecessors have provided its members with quality financial services. The Board and management remain committed to maintaining the financial integrity of the Association while offering competitive loan products that meet the financial needs of agricultural producers.

The consolidated financial statements comprise the operations of the ACA and its wholly-owned subsidiaries. The consolidated financial statements were prepared under the oversight of the Association's Audit Committee.

Patronage Refunds by Association:

In December 2021, the Board declared a cash patronage in the amount of $24,154,277 paid in February 2022 based on 2021 earnings. The patronage was paid to eligible borrowers based on their average outstanding loan balance for the year ending December 31, 2021. The Association's permanent capital remains strong after the declaration and distribution of patronage at 15.0 percent for the period ending March 31, 2022.

Patronage Refunds Received from the Farm Credit Bank of Texas (Bank):

The following table provides information on the patronage received from the Bank for the year ended December 31, 2021:

	2021
Direct loan patronage	$ 11,413,146
Stock investment in the Bank	534,798
AMBS investment patronage	114,337
Total Patronage Received	$ 12,062,281

The direct loan patronage received represents 65 basis points on average daily balance of the Association's direct loan with the Bank.

Loan Portfolio:

The Association makes and services loans to farmers, ranchers, rural homeowners and certain farm-related businesses. The Association's loan volume consists of long-term farm mortgage loans, production and intermediate-term loans and farm-related business loans. These loan products are available to eligible borrowers with competitive variable, fixed, adjustable, LIBOR-based, SOFR-based, and prime-based interest rates. Commercial loans primarily consist of operating loans and short-term loans for working capital, equipment and livestock. Mortgage loans primarily consist of 20- to 30- year maturities. Loans serviced by the Association offer several installment payment cycles, the timing of which usually coincides with the seasonal cash-flow capabilities of the borrower.

Total loans outstanding at March 31, 2022, including nonaccrual loans, were $2,370,581,410 compared to $2,287,885,939 at December 31, 2021, reflecting an increase of 3.6 percent. Nonaccrual loans as a percentage of total loans outstanding were 0.1 percent at March 31, 2022, compared to 0.1 percent at December 31, 2021. Impaired loans as a percentage of total loans outstanding were 0.1 percent at March 31, 2022, compared to 0.1 percent at December 31, 2021.

The Association recorded $3,153 in recoveries and no charge-offs for the quarter ended March 31, 2022, and $2,159 in recoveries and no charge-offs for the same period in 2021. The Association's allowance for credit losses was 0.3 percent and 0.3 percent of total loans outstanding as of March 31, 2022, and December 31, 2021, respectively.

Risk Exposure:

High-risk assets include nonaccrual loans, loans that are past due 90 days or more and still accruing interest, formally restructured loans and other property owned, net. The following table illustrates the Association's components and trends of high-risk assets.

	March 31, 2022		December 31, 2021	
	Amount	**%**	Amount	%
Nonaccrual	**$ 2,820,024**	**96.6%**	$ 3,231,936	97.0%
Formally restructured	**99,090**	**3.4%**	101,648	3.0%
Total	**$ 2,919,114**	**100.0%**	$ 3,333,584	100.0%

At March 31, 2022, and December 31, 2021, the Association held no property classified as other property owned.

Results of Operations:

The Association had net income of $13,673,179 for the three months ended March 31, 2022, as compared to net income of $10,130,958 for the same period in 2021, reflecting an increase of 35.0 percent. Net interest income was $16,556,927 for the three months ended March 31, 2022, compared to $13,340,053 for the same period in 2021.

	Three Months Ended			
	March 31, 2022		March 31, 2021	
	Average Balance	**Interest**	Average Balance	Interest
Loans	**$ 2,338,943,214**	**$ 25,977,172**	$ 2,006,418,599	$ 21,409,516
Total interest-earning assets	**2,338,943,214**	**25,977,172**	2,006,418,599	21,409,516
Interest-bearing liabilities	**1,959,170,544**	**9,420,245**	1,648,697,938	8,069,463
Impact of capital	**$ 379,772,670**		$ 357,720,661	
Net interest income		**$ 16,556,927**		$ 13,340,053

	2022 Average Yield	2021 Average Yield
Yield on loans	**4.50%**	4.33%
Total yield on interest-earning assets	**4.50%**	4.33%
Cost of interest-bearing liabilities	**1.95%**	1.99%
Interest rate spread	**2.55%**	2.34%
Net interest income as a percentage of average earning assets	**2.87%**	2.70%

	Three months ended: March 31, 2022 vs. March 31, 2021		
	Increase (decrease) due to		
	Volume	**Rate**	**Total**
Interest income - loans	**$ 3,548,220**	**$ 1,019,436**	**$ 4,567,656**
Interest expense	**1,519,615**	**(168,833)**	**1,350,782**
Net interest income	**$ 2,028,605**	**$ 1,188,269**	**$ 3,216,874**

Interest income for the three months ended March 31, 2022, increased by $4,567,656 or 21.3 percent, from the same period of 2021, primarily due to an increase in average interest-earning assets and yield on interest-earning assets. Interest expense for the three months ended March 31, 2022, increased by $1,350,782 or 16.7 percent, from the same period of 2021, due to an increase in interest-bearing liabilities offset by a decrease in the cost of interest-bearing liabilities. Average loan volume for the first quarter of 2022 was

$2,338,943,214, compared to $2,006,418,599 for the first quarter of 2021. The average net interest rate spread on the loan portfolio for the first quarter of 2022 was 2.55 percent, compared to 2.34 percent for the first quarter of 2021.

The Association's return on average assets for the three months ended March 31, 2022, was 2.32 percent compared to 2.01 percent for the same period in 2021. The Association's return on average equity for the three months ended March 31, 2022, was 14.15 percent, compared to 11.15 percent for the same period in 2021.

Noninterest income for the three months ended March 31, 2022, increased by $1,000,929 or 36.3 percent, compared to the same period of 2021, primarily due to an increase in patronage income from the Bank. Noninterest expenses for the three months ended March 31, 2022, increased by $965,916 or 15.9 percent, compared to the same period of 2021, primarily due to an increase in public and member relations, and advertising expenses, as the Association returns to normal operations post COVID-19 travel and gathering restrictions.

Provisions for credit losses for the three months ended March 31, 2022, decreased by $299,623 or 291.4 percent, compared to the same period last year, primarily due to improvement in qualitative and environmental allowance adjustments and continuous improvement in credit quality.

Liquidity and Funding Sources:

The Association secures the majority of its lendable funds from the Bank, which obtains its funds through the issuance of System-wide obligations and with lendable equity. The following schedule summarizes the Association's borrowings.

	March 31, 2022	December 31, 2021
Note payable to the bank	**$ 2,001,522,026**	$ 1,900,150,481
Accrued interest on note payable	**3,366,124**	3,072,087
Total	**$ 2,004,888,150**	$ 1,903,222,568

The outstanding balance of the note payable to the Bank of $2,001,522,026 as of March 31, 2022, is recorded as a liability on the Association's balance sheet. The note carried a weighted average interest rate of 1.95 percent at March 31, 2022. The indebtedness is collateralized by a pledge of substantially all of the Association's assets to the Bank and is governed by the General Financing Agreement (GFA). The increase in note payable to the Bank since December 31, 2021, correlates directly with the overall increase in the Association's accrual loan volume for the period. The Association's own funds, which represent the amount of the Association's loan portfolio funded by the Association's equity, were $372,578,971 at March 31, 2022. The maximum amount the Association may borrow from the Bank as of March 31, 2022, was $2,374,463,243 as defined by the GFA. The indebtedness continues in effect until the expiration date of the GFA, which is September 30, 2023, unless sooner terminated by the Bank upon the occurrence of an event of default, or by the Association, in the event of a breach of this agreement by the Bank, upon giving the Bank 30 calendar days' prior written notice, or in all other circumstances, upon giving the Bank 120 days' prior written notice.

Capital Resources:

The Association's capital position increased by $13,734,775 at March 31, 2022, compared to December 31, 2021. The Association's debt as a percentage of members' equity was 5.05:1 as of March 31, 2022, compared to 5.04:1 as of December 31, 2021.

FCA regulations require the Association to maintain minimums for various regulatory capital ratios. New regulations became effective January 1, 2017, which replaced the previously required core surplus and total surplus ratios with common equity tier 1, tier 1 capital, and total capital risk-based capital ratios. The new regulations also added tier 1 leverage and unallocated retained earnings and equivalents (UREE) ratios. The permanent capital ratio continues to remain in effect, with some modifications to align with the new regulations. As of March 31, 2022, the Association exceeded all regulatory capital requirements.

Economic Conditions:

The United States has been operating under a presidentially declared emergency since March 13, 2020, due to the Coronavirus Disease (also referred to as COVID-19). The Association continues during these unprecedented times to fulfill its mission to support agriculture and rural communities by providing access to reliable and consistent credit. The Association is closely monitoring its loan portfolio overall and is particularly focused on sectors that may be pressured by COVID-19 and its related economic impacts, such as oil and gas, food processing, timber and beef cattle. The Association has adjusted its portfolio monitoring and servicing practices. Capital levels remained strong to support any adversity or continuing loan demand.

Russia's military action in Ukraine (the Russia/Ukraine Conflict) has exacerbated the current supply chain disruptions and contributed to surging prices for certain materials and commodities. Russia and Ukraine collectively account for approximately 26.0 percent of global wheat exports and are also significant exporters of corn, nitrogen fertilizers, sunflower oil, metals and minerals, and several other products important to the agricultural industry and the global economy. Elevated commodity prices and reduced availability of some materials are leading to both challenges and opportunities for U.S. agricultural producers.

In its March 30, 2022 release, the U.S. Bureau of Economic Analysis estimated that national real GDP increased at an annual rate of 6.9 percent in the fourth quarter of 2021, up from 2.3 percent in the third quarter. The increase in GDP growth during the fourth quarter of 2021 reflected an acceleration in inventory investment, higher than anticipated consumer spending and higher exports and residential fixed investment. On April 5, 2022, the Federal Reserve Bank of Atlanta's GDPNow model estimated that real GDP growth during the first quarter of 2022 was approximately 0.9 percent. On March 31, 2022, the fourth quarter of 2021 GDP growth rates were released for the Texas District with results ranging from 10.1 percent in Texas to 4.1 percent in Mississippi. Texas's GDP growth rate for the fourth quarter of 2021 was the fastest growing in the U.S.

Quarterly average West Texas Intermediate (WTI) oil prices for the first quarter of 2022 closed at approximately $95 per barrel (/bbl), representing an increase of over 20.0 percent compared to the prior quarter and an increase of over 60.0 percent compared to the prior year quarter. According to a recent Federal Reserve Bank of Dallas survey, the WTI price averaged more than $40/bbl higher than the breakeven price to profitably drill a new well in the Permian Basin (about $52/bbl) during the first quarter of 2022. In its March 2022 Short-Term Energy Outlook, the U.S. Energy Information Administration stated that the monthly WTI spot price averaged about $68/bbl in 2021 and forecasted that it would average about $101/bbl during 2022, before declining to about $85/bbl in 2023.

Inflationary pressures continued during the first quarter of 2022. The Consumer Price Index for all urban consumers increased by 7.9 percent for the 12-month period ending February 2022, reflecting the largest 12-month increase since 1982. The largest contributors to the overall increase were rising prices for gasoline, shelter and food. In an anticipated move, the Federal Reserve began raising the target federal funds rate by 25 basis points on March 16, 2022, in an attempt to mitigate inflation. According to a March 16 Reuters' article, most policymakers now see the federal funds rate rising to a range of 1.8 percent to 2.0 percent by the end of 2022. The Federal Reserve is also expected to begin shrinking its balance sheet during the second quarter of 2022.

On March 31, 2022, the U.S. Department of Agriculture (USDA) released its 2022 Prospective Plantings report. Corn planted area was estimated at 89.5 million acres for 2022, down about 4.0 percent from the prior year. Soybean planted acreage was estimated for 2022 at a record high 91.0 million acres, up about 4.0 percent from the 2021 season. Cotton planted area was estimated for 2022 at 12.2 million acres, 9.0 percent above last year. These estimates were derived from a survey of farmers' intentions and are subject to change throughout the season.

In its March 2022, World Agricultural Supply and Demand Estimates (WASDE), the USDA, in its initial assessment of the Russia/Ukraine Conflict, reported that this conflict has significantly increased the uncertainty of agricultural supply and demand conditions both regionally and globally. Additionally in March 2022, the USDA upwardly revised its average price forecasts for 2022 for corn, soybeans, wheat and cotton for farmers. After rising less than 3.0 percent in 2021, the USDA also projected an increase in the average price received by farmers for milk by approximately 34.0 percent during 2022. For steer, barrow and gilt and broilers, the USDA projects that average prices will increase by approximately 14.0 percent, 5.5 percent and 15.1 percent, respectively, during 2022. Lumber prices remain at elevated levels, as strong demand for construction materials persists.

Agricultural producers may be negatively affected during the remainder of 2022 by several factors, including volatile commodity prices, high input costs, export market disruptions, geopolitical challenges, and adverse weather conditions.

Significant Recent Accounting Pronouncements:

Refer to Note 1 – "Organization and Significant Accounting Policies" in this quarterly report for disclosures of recent accounting pronouncements which may impact the Association's consolidated financial position and results of operations and for critical accounting policies.

Relationship With the Bank:

The Association's financial condition may be impacted by factors that affect the Bank. The financial condition and results of operations of the Bank may materially affect the stockholder's investment in the Association. The Management's Discussion and Analysis and

Notes to Financial Statements contained in the 2021 Annual Report of the Association more fully describe the Association's relationship with the Bank.

The annual and quarterly stockholder reports of the Bank are available free of charge, upon request. These reports can be obtained by writing to Farm Credit Bank of Texas, Corporate Communications, P.O. Box 202590, Austin, Texas 78720, or by calling (512) 483-9204. The annual and quarterly stockholder reports are also available on its website at *www.farmcreditbank.com*.

The Association's annual and quarterly stockholder reports are also available free of charge, upon request. The annual and quarterly stockholder reports are available approximately 75 days after year end and 40 days after quarter end, respectively, and can be obtained by writing to Lone Star, ACA, 1612 Summit Avenue, Suite 300, Fort Worth, Texas 76102 or calling (817) 332-6565. The annual and quarterly stockholder reports for the Association are also available on its website at *www.lonestaragcredit.com*. Copies of the reports can also be requested by e-mailing *ShareHolderRelations@lonestaragcredit.com*.

LONE STAR, ACA
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES:

Lone Star, ACA, including its wholly-owned subsidiaries, Lone Star, PCA and Lone Star, FLCA, is a member-owned cooperative which provides credit and credit-related services to, or for the benefit of, eligible borrowers/stockholders for qualified agricultural purposes in the counties of Bell, Borden, Bosque, Bowie, Burnet, Camp, Cass, Cooke, Coryell, Dallas, Delta, Denton, Eastland, Ellis, Erath, Falls, Fannin, Fisher, Freestone, Grayson, Hamilton, Hill, Hood, Johnson, Kent, Lamar, Lampasas, Limestone, McLennan, Milam, Mitchell, Morris, Navarro, Nolan, Palo Pinto, Parker, Red River, Scurry, Shackelford, Somervell, Stephens, Tarrant, Taylor, Throckmorton, Titus, Williamson, Wise and Young in the state of Texas. The Association is a lending institution of the Farm Credit System, which was established by Acts of Congress to meet the needs of American agriculture.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information. Accordingly, they do not include all of the disclosures required by GAAP for annual financial statements and should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2021, as contained in the 2021 Annual Report to Stockholders.

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles (GAAP), except for the inclusion of a statement of cash flows. GAAP require a business enterprise that provides a set of financial statements reporting both financial position and results of operations to also provide a statement of cash flows for each period for which results of operations are provided. In regulations issued by FCA, associations have the option to exclude statements of cash flows in interim financial statements. Therefore, the Association has elected not to include a statement of cash flows in these consolidated financial statements. These interim financial statements should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2021, as contained in the 2021 Annual Report to Stockholders. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year ending December 31, 2022. Descriptions of the significant accounting policies are included in the 2021 Annual Report to Stockholders. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with GAAP and prevailing practices within the banking industry.

In June 2016, the FASB issued guidance entitled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain institutions. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those institutions qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on the Association's financial condition and its results of operations, with planned adoption for interim and annual reporting periods beginning after December 15, 2022.

NOTE 2 — INVESTMENTS:

The Association may hold mission-related and other investments. The Farm Credit Administration approves mission-related programs and other mission-related investments. The following is a summary of mission-related and other investments that are held to maturity:

During 2010, the Association exchanged loans totaling $59,626,146 for Federal Agricultural Mortgage Corporation (Farmer Mac) guaranteed mortgage-backed securities (AMBS). The loans were previously covered under the Long-Term Standby Commitment to Purchase Agreements with Farmer Mac. No gain or loss was recognized in the financial statements upon completion of the exchange transactions.

Effective January 26, 2012, the Bank purchased the Association's securitized Farmer Mac AMBS Investments. The purchase of $35,459,508 included outstanding principal and accrued interest as of that date. There was no gain or loss recognized by the Association on this transaction. The Association will continue to service the underlying loans that were included in this security. Also, for 2012 there was no effect to the Association's income based on this transaction as the Bank was able to pay the Association a patronage equivalent to the net interest that it would have earned on the AMBS investment. The amount of patronage received in 2021 was $114,337. However, for future years, the Bank's payment of patronage is at the discretion of the Bank's board of directors. The remaining balance of the AMBS investment at March 31, 2022 was $3,122,144.

NOTE 3 — LOANS AND ALLOWANCE FOR CREDIT LOSSES:

Loan Type	**March 31, 2022 Amount**	December 31, 2021 Amount
Production agriculture:		
Real estate mortgage	**$ 1,939,331,250**	$ 1,859,039,229
Production and intermediate term	**132,445,152**	131,798,156
Agribusiness:		
Loans to cooperatives	**12,545,497**	7,259,997
Processing and marketing	**138,677,994**	143,460,471
Farm-related business	**59,971,832**	55,455,694
Communication	**44,614,896**	43,807,116
Energy	**23,932,850**	24,713,083
Water and wastewater	**1,475,674**	4,169,272
Rural residential real estate	**9,415,488**	10,012,596
International	**8,170,777**	8,170,325
Total	**$ 2,370,581,410**	$ 2,287,885,939

The Association purchases or sells participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration regulations. The following table presents information regarding the balances of participations purchased and sold at March 31, 2022:

	Other Farm Credit Institutions		Non-Farm Credit Institutions		Total	
	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold
Real estate mortgage	$ 24,725,907	$ 31,880,052	$ 4,829,527	$ -	$ 29,555,434	$ 31,880,052
Production and intermediate term	40,996,260	17,915,026	-	-	40,996,260	17,915,026
Agribusiness	187,054,329	5,626,971	-	-	187,054,329	5,626,971
Communication	44,614,896	-	-	-	44,614,896	-
Energy	23,932,850	-	-	-	23,932,850	-
Water and wastewater	1,475,674	-	-	-	1,475,674	-
International	8,170,777	-	-	-	8,170,777	-
Total	$ 330,970,693	$ 55,422,049	$ 4,829,527	$ -	$ 335,800,220	$ 55,422,049

The Association is authorized under the Farm Credit Act to accept "advance conditional payments" (ACPs) from borrowers. To the extent the borrower's access to such ACPs is restricted and the legal right of setoff exists, the ACPs are netted against the borrower's related loan balance. Unrestricted advance conditional payments are included in other liabilities. ACPs are not insured, and interest is generally paid by the Association on such balances. Balances of ACPs were $15,237,660 and $12,567,416 at March 31, 2022, and December 31, 2021, respectively.

Nonperforming assets (including related accrued interest) and related credit quality statistics are as follows:

		March 31, 2022	December 31, 2021
Nonaccrual loans:			
Real estate mortgage	**$**	**2,360,798**	$ 2,754,743
Production and intermediate term		**41,578**	43,928
Energy		**410,394**	433,265
Rural residential real estate		**7,254**	-
Total nonaccrual loans		**2,820,024**	3,231,936
Accruing restructured loans:			
Real estate mortgage		**99,090**	101,648
Total accruing restructured loans		**99,090**	101,648
Total nonperforming loans		**2,919,114**	3,333,584
Total nonperforming assets	**$**	**2,919,114**	$ 3,333,584

One credit quality indicator utilized by the Association is the Farm Credit Administration Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- Acceptable – assets are expected to be fully collectible and represent the highest quality;
- Other assets especially mentioned (OAEM) – assets are currently collectible but exhibit some potential weakness;
- Substandard – assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan;
- Doubtful – assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable; and
- Loss – assets are considered uncollectible.

The following table shows loans and related accrued interest as a percentage of total loans and related accrued interest receivable by loan type as of:

	March 31, 2022	December 31, 2021
Real estate mortgage

Total	$ 1,834,272	$ 254,381	$ 2,088,653	$ 2,296,476,477	$ 2,298,565,130

Note: The recorded investment in the receivable is the face amount increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges or acquisition costs, and may also reflect a previous direct write-down of the investment.

Troubled Debt Restructuring: A restructuring of a debt constitutes a troubled debt restructuring if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Troubled debt restructurings (TDRs) are undertaken in order to improve the likelihood of recovery on the loan and may include, but are not limited to, forgiveness of principal or interest, interest rate reductions that are lower than the current market rate for new debt with similar risk, or significant term or payment extensions.

As of March 31, 2022, the total recorded investment of troubled debt restructured loans was $1,253,748, including $1,154,658 classified as nonaccrual and $99,090 classified as accrual, with no specific allowance for loan losses. There were no commitments to lend funds to borrowers whose loan terms have been modified in a troubled debt restructuring as of March 31, 2022, and December 31, 2021.

There were no loans with troubled debt restructuring designation that occurred during the three months ended March 31, 2022, and 2021, respectively.

In restructurings where principal is forgiven, the amount of the forgiveness is immediately charged off. In restructurings where accrued interest is forgiven, the interest is reversed (if current year interest) or charged off (if prior year interest). There were no restructurings where principal was forgiven that required a charge-off, at the modification date, for the three months ended March 31, 2022, and 2021, respectively.

The predominant form of concession granted for troubled debt restructuring includes an extension of the term, principal, or accrued interest reduction, interest rate decrease or delayed in repayment of principal, among others. At times, these terms might be offset with incremental payments, collateral or new borrower guarantees, in which case we assess all of the modified terms to determine if the overall modification qualifies as a troubled debt restructuring.

As of March 31, 2022, and 2021, respectively, the Association had no loans that met the accounting criteria as a troubled debt restructuring and that occurred within the previous 12 months of that year and for which there was a payment default during the period. A payment default is defined as a payment that is 30 days past due after the date the loan was restructured.

The following table provides information on outstanding loans restructured in troubled debt restructurings at period end. These loans are included as impaired loans in the impaired loan table at:

	Loans Modified as TDRs		TDRs in Nonaccrual Status*		TDRs in Accrual Status	
	March 31, 2022	December 31, 2021	**March 31, 2022**	December 31, 2021	**March 31, 2022**	December 31, 2021
Real estate mortgage	**$ 1,253,748**	$ 1,292,226	**$ 1,154,658**	$ 1,190,578	**$ 99,090**	$ 101,648
Total	**$ 1,253,748**	$ 1,292,226	**$ 1,154,658**	$ 1,190,578	**$ 99,090**	$ 101,648

*represents the portion of loans modified as TDRs that are in nonaccrual status

Additional impaired loan information is as follows:

Collectively evaluated for impairment	$ 1,865,450,599	$ 132,484,449	$ 206,718,962	$ 43,813,548	$ 24,375,500	$ 4,169,470	$ 10,035,571	$ 8,183,447	$ 2,295,231,546

NOTE 4 —LEASES:

The components of lease expense were as follows:

	For the Three Months Ended	
	March 31, 2022	March 31, 2021
Operating lease cost	**$ 154,280**	$ 149,215
Net lease cost	**$ 154,280**	$ 149,215

Other information related to leases was as follows:

	For the Three Months Ended	
	March 31, 2022	March 31, 2021
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	**$ 146,957**	$ 139,672

Lease term and discount rate are as follows:

	March 31, 2022	December 31, 2021
Weighted average remaining lease term in years		
Operating leases	**2.9**	2.8
Weighted average discount rate		
Operating leases	**2.5%**	2.5%

Future minimum lease payments under non-cancellable leases as of March 31, 2022, were as follows:

	Operating Leases
2022 (excluding the three months ended 3/31/22)	$ 430,957
2023	526,470
2024	279,702
2025	65,684
2026	36,971
Total	$ 1,339,784

NOTE 5 — CAPITAL:

The Association's Board has established a Capital Adequacy Plan (Plan) that includes the capital targets that are necessary to achieve the institution's capital adequacy goals as well as the minimum permanent capital standards. The Plan monitors projected patronage, equity retirements and other actions that may decrease the Association's permanent capital. In addition to factors that must be considered in meeting the minimum standards, the Board also monitors the following factors: capability of management; quality of operating policies, procedures and internal controls; quality and quantity of earnings; asset quality and the adequacy of the allowance for losses to absorb potential loss within the loan and lease portfolios; sufficiency of liquid funds; needs of an institution's customer base; and any other risk-oriented activities, such as funding and interest rate risk, potential obligations under joint and several liability, contingent and off-balance-sheet liabilities or other conditions warranting additional capital. At least quarterly, management reviews the Association's goals and objectives with the board.

Regulatory Capitalization Requirements

Risk-adjusted:	Regulatory Requirements Including Capital Conservation Buffers	As of March 31, 2022
Common equity tier 1 ratio	7.00%	14.99%
Tier 1 capital ratio	8.50%	14.99%
Total capital ratio	10.50%	15.31%
Permanent capital ratio	7.00%	15.04%
Non-risk-adjusted:		
Tier 1 leverage ratio	5.00%	15.20%
UREE leverage ratio	1.50%	14.95%

Risk-adjusted assets have been defined by FCA Regulations as the Statement of Condition assets and off-balance-sheet commitments adjusted by various percentages, depending on the level of risk inherent in the various types of assets. The primary changes which generally have the impact of increasing risk-adjusted assets (decreasing risk-based regulatory capital ratios) were as follows:

- Inclusion of off-balance-sheet commitments less than 14 months
- Increased risk-weighting of most loans 90 days past due or in nonaccrual status

Risk-adjusted assets is calculated differently for the permanent capital ratio (referred herein as PCR risk-adjusted assets) compared to the other risk-based capital ratios. The primary difference is the deduction of the allowance for credit losses from risk-adjusted assets for the permanent capital ratio.

The ratios are based on a three-month average daily balance in accordance with FCA regulations and are calculated as follows:

- Common equity tier 1 ratio is statutory minimum purchased borrower stock, other required borrower stock held for a minimum of 7 years, allocated equities held for a minimum of 7 years or not subject to revolvement, unallocated retained earnings, paid-in capital, less certain regulatory required deductions including the amount of allocated investments in other System institutions, and the amount of purchased investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Tier 1 capital ratio is common equity tier 1 plus non-cumulative perpetual preferred stock, divided by average risk-adjusted assets.
- Total capital is tier 1 capital plus other required borrower stock held for a minimum of 5 years, allocated equities held for a minimum of 5 years, subordinated debt and limited-life preferred stock greater than 5 years to maturity at issuance subject to certain limitations, allowance and reserve for credit losses under certain limitations less certain investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Permanent capital ratio (PCR) is all at-risk borrower stock, any allocated excess stock, unallocated retained earnings, paid-in capital, subordinated debt and preferred subject to certain limitations, less certain allocated and purchased investments in other System institutions, divided by PCR risk-adjusted assets.
- Tier 1 leverage ratio is tier 1 capital, including regulatory deductions, divided by average assets less regulatory deductions subject to tier 1 capital.
- UREE leverage ratio is unallocated retained earnings, paid-in capital, allocated surplus not subject to revolvement less certain regulatory required deductions including the amount of allocated investments in other System institutions divided by average assets less regulatory deductions subject to tier 1 capital.

If the capital ratios fall below the minimum regulatory requirements, including the capital conservation and leverage buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary bonus payments to senior officers are restricted or prohibited without prior FCA approval.

The components of the Association's risk-adjusted capital, based on 90 day average balances, were as follows at March 31, 2022:

	Common equity tier 1 ratio	Tier 1 capital ratio	Total capital ratio	Permanent capital ratio
Numerator:				
Unallocated retained earnings	$ 228,312,780	$ 228,312,780	$ 228,312,780	$ 228,312,780
Paid-in capital	91,343,553	91,343,553	91,343,553	91,343,553
Common Cooperative Equities:				
Statutory minimum purchased borrower stock	5,925,663	5,925,663	5,925,663	5,925,663
Nonqualified allocated equities not subject to retirement	65,733,966	65,733,966	65,733,966	65,733,966
Allowance for loan losses and reserve for credit losses subject to certain limitations	-	-	7,465,302	-
Regulatory Adjustments and Deductions:				
Amount of allocated investments in other System institutions	(34,113,022)	(34,113,022)	(34,113,022)	(34,113,022)
	$ 357,202,940	$ 357,202,940	$ 364,668,242	$ 357,202,940
Denominator:				
Risk-adjusted assets excluding allowance	$ 2,416,491,436	$ 2,416,491,436	$ 2,416,491,436	$ 2,416,491,436
Regulatory Adjustments and Deductions:				
Regulatory deductions included in total capital	(34,113,022)	(34,113,022)	(34,113,022)	(34,113,022)
Allowance for loan losses	-	-	-	(7,339,753)
	$ 2,382,378,414	$ 2,382,378,414	$ 2,382,378,414	$ 2,375,038,661

The components of the Association's non-risk-adjusted capital, based on 90 day average balances, were as follows at March 31, 2022:

	Tier 1 leverage ratio	UREE leverage ratio
Numerator:		
Unallocated retained earnings	$ 228,312,780	$ 228,312,780
Paid-in capital	91,343,553	91,343,553
Common Cooperative Equities:		
Statutory minimum purchased borrower stock	5,925,663	-
Nonqualified allocated equities not subject to retirement	65,733,966	65,733,966
Regulatory Adjustments and Deductions:		
Amount of allocated investments in other System institutions	(34,113,022)	(34,113,022)
	$ 357,202,940	$ 351,277,277
Denominator:		
Total Assets	$ 2,385,450,061	$ 2,385,450,061
Regulatory Adjustments and Deductions:		
Regulatory deductions included in tier 1 capital	(35,523,579)	(35,523,579)
	$ 2,349,926,482	$ 2,349,926,482

The Association's accumulated other comprehensive loss relates entirely to its nonpension other postretirement benefits. The following table summarizes the change in accumulated other comprehensive loss for the three months ended March 31:

	2022	2021
Accumulated other comprehensive loss at January 1	**$(954,347)**	$ (1,060,093)
Amortization of prior service credit included in salaries and employee benefits	**(6,629)**	(6,629)
Amortization of actuarial loss included in salaries and employee benefits	**14,456**	17,324
Other comprehensive income, net of tax	**7,827**	10,695
Accumulated other comprehensive loss at March 31	**$ (946,520)**	$ (1,049,398)

NOTE 6 — INCOME TAXES:

Lone Star, ACA conducts its business activities through two wholly-owned subsidiaries. Long-term mortgage lending activities are conducted through a wholly-owned FLCA subsidiary which is exempt from federal and state income tax. Short- and intermediate-term lending activities are conducted through a wholly-owned PCA subsidiary. The PCA subsidiary and the ACA holding company are subject to income tax. Lone Star, ACA operates as a cooperative that qualifies for tax treatment under Subchapter T of the Internal Revenue Code. Accordingly, under specified conditions, Lone Star, ACA can exclude from taxable income amounts distributed as qualified patronage in the form of cash, stock or allocated retained earnings. Provisions for income taxes are made only on those taxable earnings that will not be distributed as qualified patronage. Deferred taxes are recorded at the tax effect of all temporary differences based on the assumption that such temporary differences are retained by the institution and will therefore impact future tax payments. A valuation allowance is provided against deferred tax assets to the extent that it is more likely than not (more than 50 percent probability), based on management's estimate, that they will not be realized.

As of March 31, 2022, the deferred income tax valuation allowance was $10,340,235.

NOTE 7 — FAIR VALUE MEASUREMENTS:

FASB guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. See Note 15 to the 2021 Annual Report to Stockholders for a more complete description.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

March 31, 2022	**Fair Value Measurement Using**			**Total Fair**
	Level 1	**Level 2**	**Level 3**	**Value**
Assets:				
Assets held in nonqualified benefit trusts	**$164,960**	**$ -**	**$ -**	**$ 164,960**
Total assets	**$164,960**	**$ -**	**$ -**	**$ 164,960**

December 31, 2021	Fair Value Measurement Using			Total Fair
	Level 1	Level 2	Level 3	Value
Assets:				
Assets held in nonqualified benefit trusts	$ 205,962	$ -	$ -	$ 205,962
Total assets	$ 205,962	$ -	$ -	$ 205,962

Assets and liabilities measured at fair value on a nonrecurring basis for each of the fair value hierarchy values are summarized below:

March 31, 2022	**Fair Value Measurement Using**			**Total Fair**
	Level 1	**Level 2**	**Level 3**	**Value**
Assets:				
Loans	**$ -**	**$ -**	**$309,840**	**$ 309,840**

December 31, 2021	Fair Value Measurement Using			Total Fair
	Level 1	Level 2	Level 3	Value
Assets:				
Loans	$ -	$ -	$ 332,710	$ 332,710

Valuation Techniques

As more fully discussed in Note 2 to the 2021 Annual Report to Stockholders, authoritative guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following represent a brief summary of the valuation techniques used for the Association's assets and liabilities. For a more complete description, see Notes to the 2021 Annual Report to Stockholders.

Assets Held in Nonqualified Benefits Trusts

Assets held in trust funds related to deferred compensation and supplemental retirement plans are classified within Level 1. The trust funds include investments that are actively traded and have quoted net asset values that are observable in the marketplace.

Standby Letters of Credit

The fair value of letters of credit approximate the fees currently charged for similar agreements or the estimated cost to terminate or otherwise settle similar obligations.

Loans Evaluated for Impairment

For certain loans evaluated for impairment under impairment guidance, the fair value is based upon the underlying collateral since the loans are collateral-dependent loans for which real estate is the collateral. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, a majority of these loans have fair value measurements that fall within Level 3 of the fair value hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established. The fair value of these loans would fall under Level 2 of the hierarchy if the process uses independent appraisals and other market-based information.

Fair Value of Concessions Granted

The Association has recorded amounts related to the fair value of concessions granted for certain loans related to the breach of Association policies in 2016 and 2017. These amounts are netted against the unpaid principal balance of the related loans similar to a discount. The concessions granted were either through the refinancing of a relationship or as a result of acceptance of rates and terms previously negotiated, which were more favorable than market terms and rates. The fair value of the concessions are based on the expected future cash flows under the new contractual terms, discounted at a market interest rate. The fair value of the concessions is amortized into interest income over the contractual life of the related loans.

Other Property Owned

Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of other property owned involves the use of appraisals or other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset's fair value.

NOTE 8 — EMPLOYEE BENEFIT PLANS:

The following table summarizes the components of net periodic benefit costs of nonpension other postretirement employee benefits for the three months ended March 31:

	Other Benefits	
	2022	2021
Service cost	**$ 20,652**	$ 17,681
Interest cost	**42,624**	44,533
Amortization of prior credits	**(6,629)**	(6,629)
Amortization of net actuarial loss	**14,456**	13,503
Net periodic benefit cost	**$ 71,103**	$ 69,088

The Association's liability for the unfunded accumulated obligation for these benefits at March 31, 2022, was $5,538,507 and is included in other liabilities on the balance sheet.

The components of net periodic benefit cost other than the service cost component are included in the line item "other components of net periodic postretirement benefit cost" in the income statement. The Association previously disclosed in its financial statements for the year ended December 31, 2021, that it expects to contribute $190,113 to the district's DC plan in 2022.

The structure of the district's DB plan, which is noncontributory and benefits are based on salary and years of service, is characterized as multiemployer since the assets, liabilities and cost of the plan are not segregated or separately accounted for by participating employers (Bank and associations). The Association recognizes its amortized annual contributions to the DB plan as an expense. The Association has contributed $520,571 to fund the DB plan for 2022. As of March 31, 2022, the Association has expensed and recognized $130,143.

NOTE 9 — COMMITMENTS AND CONTINGENT LIABILITIES:

The Association is involved in various legal proceedings in the normal course of business. In the opinion of legal counsel and management, there are no legal proceedings at this time that are likely to materially affect the Association.

NOTE 10 — SUBSEQUENT EVENTS:

The Association has evaluated subsequent events through May 10, 2022, which is the date the financial statements were issued or available to be issued.

There are no other subsequent events requiring disclosure as of May 10, 2022.
